MATRI

Bathrooms & Heating

MATRIX

est. 1999

Your complete bathroom...

Matrix Bathrooms & Heating are distributors of bathroom and heating products to retailers nationwide. Established in 1999 we are a 100% Irish owned and a family run business.

Our distribution centre is located in the centre of Ireland helping us give efficient access to our products nationwide all of which has helped us become one of Ireland's leading bathroom & heating distributors.

Matrix Bathrooms & Heating offer a modern range of quality bathroom & heating products. Each item is individually designed and developed using only the finest components, bringing a luxury feel to all our products throughout the range. Our bathroom & heating collection has something to suit everyone's style and budget.

Contents

Shower Enclosures	2
Wetrooms	15
Ceramics	21
Baths	39
Bathroom Furniture	43
Mirrors	81
Taps & Showers	88
Bathroom Accessories	114
Shower Trays	120

Heating	130
Specifications	140

All prices are recommended retail and include VAT at 21%

The prices and specifications contained within this brochure are for informational purposes only. Our design and development team are constantly working to improve all our products, therefore are subject to change without prior notice. Matrix Bathrooms & Heating cannot guarantee that the illustrations in our brochure are in all cases identical with goods supplied.

Please Note: Returns incur a strictly administered restocking charge, and opened products will not be accepted.

All sizes are in millimetres.

Shower Enclosures

All Matrix shower enclosures, wetroom panels & bathscreens are now covered by XProtect Easy Clean Glass Treatment. This will help prevent the built up of soap, dirt & limescale thus helping the glass to be easily cleaned.

MATRIX LED Mirrors

- IP44 rated
- CE certified.
- Zone 2 Certified.

(Zone 2 is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone an IP rating of at least IP44 is required. In addition it is good practice to consider the area around a wash basin within 60cm radius of any tap as zone 2)

Shower Trays

Matrix slim shower trays are available in a combination of shapes and sizes.

They are a low profile tray standing just 40mm high and include a 90mm high flow waste and trap which incorporates a chrome cover. With ABS capped acrylic cover a stone powder mixed resin, the slim tray has ultimate strength and rigidity.

All Matrix shower trays have a Class 1 CE Certification.

*Please note waste positions as shown below

Easy-plum (panel & leg) options also available

*90mm waste included

Easy Plumb - Leg & Panel Kit

Easy-Plumb shower trays are raised up on feet. This allows for easy fitting of the waste drain pipe. Since the waste drain pipe can be easily fitted under the shower tray, it can solve tricky installation issues that can arise due to the positioning of joists, etc.

Once the waste pipe is fitted and the tray installed, removable panels are then fitted. As these panels are removable, easy access to the drain pipe is possible.

The easy plumb system is available on all slim shower tray sizes.

(Stated sizes are +/- 5mm tolerance)

Oxypic works to keep the heating system at maximum efficiency year after year, it works against corrosion, scale, oxide sludge and expels air from the water as it circulates, all this from the one additive. Oxypic also continues to circulate in the water to seal further potential leaks. Its magic, no need to worry which of several complex additives to use. Use Oxypic for the lot. It also conforms to BS1486:1978 and BS7593:1992.

Oxypic seals leaks in all metal boilers and pipework including threaded joints, it must be understood however that the metal itself must be of sufficient substance for the Oxypic to make the repair. It will therefore not repair leaks in boilers or pipework worn thin with age.

Oxypic will also seal leaks on plastic pipework according to tests made over a reasonable period of time. However we cannot yet give an unconditional guarantee on plastic pipe work. If you do have a problem on plastic pipe-

...And after OXYPIC seals the leak, it continues to work expelling air from the water and reducing boiler noise - thereby guarding against any future leaks, scaling and rust.
